

## 6. The F.A.S.T Laboratories

### The First Analytical Services and Technical Cooperative (CALABARZON)

Address : Phase 1, Ponte Verde, San Rafael, Santo Tomas,  
Batangas

Telephone No. : 043-723-0424

Fax No. : N/A

E-mail : ymsalilid.fastlaboratories@gmail.com  
dsibongga.fastlaboratories@gmail.com

Contact Person : Yehlen Salilid  
Compliance and Quality Manager

Rey Christian Marbella  
Laboratory Business Manager

Field of Testing : Chemical Testing and  
Microbiological Testing

## Chemical Testing

| Product           | Specific Test | Method Reference                                       |
|-------------------|---------------|--------------------------------------------------------|
| <b>VI. Water</b>  |               |                                                        |
| .01 Bottled Water | pH            | Electrometric Method/ SMEWW 4500-H+B                   |
|                   | Color         | Visual Comparison/ SMEWW 2120 B.                       |
|                   | Iron          | 3030F 3111 B. Direct Acetylene Flame Method /<br>SMEWW |
|                   | Chromium      |                                                        |
|                   | Nickel        |                                                        |
|                   | Cadmium       |                                                        |
|                   | Copper        |                                                        |
|                   | Cobalt        |                                                        |
|                   | Manganese     |                                                        |
|                   | Silver        |                                                        |
|                   | Zinc          |                                                        |
|                   | Lead          | 3030E 3111 B. Direct Acetylene Flame Method /<br>SMEWW |
|                   | Mercury       | 3112 B. Cold Vapor-AAS/SMEWW                           |

## Microbiological Testing

| Product                                                                                            | Specific Test                    | Method Reference                                     |
|----------------------------------------------------------------------------------------------------|----------------------------------|------------------------------------------------------|
| I. Foods                                                                                           |                                  |                                                      |
| 1.0 Milk and Dairy Products                                                                        |                                  |                                                      |
| 01.1 Milk Powders (e.g. whole non-fat or filled milk, buttermilk, whey & whey protein concentrate) | Aerobic Plate Count              | Pour Plate Method/Standard Method for Dairy Products |
| 01.2 Sweetened Condensed Milk                                                                      | Coliform Count                   | Solid Medium/Standard Method for Dairy Products      |
| 01.4 Pasteurized Milk                                                                              |                                  | IMVic/BAM                                            |
| 01.5 Pasteurized Cream                                                                             |                                  | Conventional-Presumptive/BAM                         |
| 01.6 Yogurt and other Fermented Milk                                                               |                                  |                                                      |
| 01.7 Cheese and Products: e.g. Cottage Cheese, Soft and Semi-Soft Cheese (Moisture ≥ 39%, pH > 5)  | E.coli detection                 |                                                      |
| 01.8 Processed Cheese Spread                                                                       | Salmonella detection-presumptive |                                                      |
| 02.0 Fats and Oils, and Fat Emulsions                                                              |                                  |                                                      |
| 02.1 Butter (Whipped, Pasteurized)                                                                 | Aerobic Plate Count              | Pour Plate Method/BAM                                |
| 02.2 Butter made from unpasteurized milk or milk products                                          | Coliform Count                   | Solid Medium/BAM or MTFT/BAM                         |
| 02.3 Margarine                                                                                     | E.coli detection                 | IMVic/BAM                                            |
|                                                                                                    | Salmonella detection-presumptive | Conventional-Presumptive/BAM                         |
| 03.0 Edible Ices, Including sherbet and sorbet                                                     |                                  |                                                      |
| 03.1 Ice Cream and Sherbet (Plain and Flavoured)                                                   | Aerobic Plate Count              | Pour Plate Method/BAM                                |
| 03.2 Ice Cream with added ingredients (Nuts, Fruits, Cocoa etc.)                                   | Coliform Count                   | Solid Medium/BAM                                     |
| 03.3 Flavored Ice (e.g. Ice Candy)                                                                 | E.coli detection                 | IMVic/BAM                                            |
|                                                                                                    | Salmonella detection-presumptive | Conventional-Presumptive/BAM                         |
| 04.0 Confectionaries                                                                               |                                  |                                                      |
| 04.1 Cocoa Powder                                                                                  | Aerobic Plate Count              | Pour Plate Method/BAM                                |

| Product                                                                                                     | Specific Test                    | Method Reference             |
|-------------------------------------------------------------------------------------------------------------|----------------------------------|------------------------------|
| 04.2 Chocolate Products                                                                                     | Coliform Count                   | Solid Medium/BAM or MTFT/BAM |
| 04.3 Chocolate Confectionaries (chocolate bars, blocks and bonbon)                                          | E.coli detection                 | IMVic/BAM                    |
| 04.4 Sugar Confectionaries (hard and soft candies, toffees, caramel, fondants, creams, nougats, and pastes) | Salmonella detection-presumptive | Conventional-Presumptive/BAM |
| <b>05.0 Fruits and Vegetables, Nuts and Seeds</b>                                                           |                                  |                              |
| 05.1 Frozen Vegetables and Fruits (pH > 4.5)                                                                | Aerobic Plate Count              | Pour Plate /BAM              |
|                                                                                                             | Coliform Count                   | E.coli detection/BAM         |
| 05.2 Fermented Fruits and Vegetables, Ready to Eat (e.g. Kimchi)                                            | E. coli detection                | IMVic/BAM                    |
| 05.3 Fruits and Vegetable products in hermetically sealed container (thermally processed)                   | Salmonella detection-presumptive | Conventional-Presumptive/BAM |
| 05.4 Dried Vegetables                                                                                       |                                  |                              |
| 05.5 Coconut (desiccated)                                                                                   |                                  |                              |
| 05.6 Peanut butter & other Nut Butters                                                                      |                                  |                              |
| 05.7 Sun Dried Fruit                                                                                        |                                  |                              |
| <b>06.0 Egg and Egg Products</b>                                                                            |                                  |                              |
| 06.1 Pasteurized egg products (liquid, frozen or dried)                                                     | Aerobic Plate Count              | Pour Plate Method/BAM        |
|                                                                                                             | Coliform Count                   | Solid Medium/BAM             |
