

CORPORATE SOCIAL RESPONSIBILITY STATEMENT

The Civil Aviation Authority of the Philippines (CAAP) recognizes its responsibility to be sensitive to the needs of its stakeholders, employees, community, environment, and the government.

In the exercise of its corporate social responsibility, the Authority understands that it is necessary to take into account the impact of its decisions on its stakeholders while balancing its mission to ensure safe, secure, and sustainable civil aviation that promotes innovation, collaboration, connectivity aligned for national growth.

For its stakeholders, the Authority recognizes its responsibility towards to be a prominent Civil Aviation Authority in the world and a global brand of excellence in civil aviation while maintaining the level of security and safety in compliance with international standards.

For its employees, CAAP acknowledges its responsibility towards providing good working condition and appropriate benefits, encourage employee participation in Authority's decisions, pursue occupational health and safety policies and advocating a gender-sensitive environment in the workplace.

For the community, the Authority recognizes its responsibility towards creating an environment of collaboration, connectivity, and social awareness in order to achieve a common goal that's beneficial to its customers and other stakeholders.

For the environment, CAAP ensures its responsibility in monitoring, reporting, and verification of carbon emission for international flights, use of sustainable aviation fuel, and operational efficiency with the aim of reducing carbon footprint.

As an integral part of the national government, CAAP is inherently mandated to be socially responsible, to act and operate as good corporate citizens.
